Course Materials

Textbooks:

Resources:

Module # and Title	Course Learning Outcomes (CLOs)	Module Learning Outcomes (MLOs)	Assessments and Rubrics	Activities: Learner Interaction & Engagement	Instructional Materials
The title should be **short**, yet **descriptive** and **specific** to content being explored.	List all course learning outcomes addressed in the module by their Roman numerals.	State the module's intended ***measurable*** learning outcomes. MLOs must describe student performance in specific, observable terms. Use suggested action verbs from Bloom's Taxonomy. In parentheses, include the course learning outcomes (CLOs) that align to each MLO.	Specify all assessments that will be used to **measure the stated module learning outcomes**. List the name of rubric (if applicable) that provides descriptive and specific evaluation criteria for the assessment. Also, list the MLO(s) that align with each assessment. If assessment does not count towards the student's grade, they should be marked "Not graded" in place of the rubric name.	List all learning activities that **promote achievement of the stated module learning outcomes and align with assessments** Learning Activities may also be listed in the assessment column if they are graded. In parentheses, include the MLOs that are being met wit each activity.	List all instructional materials and technology/media used during the module that **promote achievement of the stated module learning outcome**. This may include readings, web resources, videos, podcasts, audio, etc. In parentheses, include the MLO(s) that align to the materials. If a learning material does not have an aligned MLO mark it as Supplemental or Optional.
Module 1:	**VII** **VIII** **IX**	**After successful completion of the module, the student will be able to:**
